*“Patient-Centered Research: Increase Access and Impact of Clinical Research and Trials to Reduce Health Disparities”*

**Presented by**

**Praduman Jain (PJ), Founder and CEO  
Vibrent Health**

Principal Investigator (PI)  
Participant Technology Systems Center (PTSC)  
Chair, Data Security Board  
NIH Precision Medicine Initiative  
NIH All of Us Research Program

Discussion Synopsis: Mr. Jain will talk about his experience with several research programs, small and large, that are utilizing these innovative, evidence-based digital tools and resources to conduct patient powered/patient centered precision research. These tools are scientifically proven and have been shown to reduce barriers to clinical research. Mr. Jain will also talk about how ICTR can build capacity for successful pragmatic clinical trials, investigator-initiated studies, and industry clinical trials, through digital tools, training, and processes. Mr. Jain will highlight a few research programs such as the NIH *All of Us*, a large longitudinal study, that has successfully achieved high, multi-year RETENTION through community engagement.
